Mustard Seed Ministries is very excited that the FCC Youth wish to come assist us with some work for their mission trip. We have built one family emergency shelter on our property and would like to get the second one built. There are a couple of projects that need to take place in order for us to begin the second shelter and get the property ready to open the shelters. I have listed below the two projects, which would be running simultaneously due to the number of participants. I have also listed the supplies necessary to complete these projects. Being a small church, all tools/supplies being supplied belong to the Pastor, so any additional supplies/support would be greatly appreciated.

If you have any additional questions regarding the projects, please feel free to contact the Pastor at the number listed above.
